

I am NOT in favor of Verizon Wireless' petition to kill wireless number portability. Please do not reverse your previous rule requiring cell phone number portability.

As a small business owner, I cannot afford the lost business revenue when my customers are unable to reach me and my sales people. Please believe me when I tell you that switching phone numbers is very serious for a Sales Agency.

Verizon Wireless' petition to kill wireless number portability is NOT in small businesses' best interest. The more we use our existing wireless numbers, the more threatening Verizon's petition becomes.

My small business has already worked through an area code change once. Unless wireless phone numbers become portable, we will undoubtedly require many more area codes to facilitate new wireless numbers needlessly.

Sincerely,

Gregory A. Bruno
